

Dr. Stella Ioannou
Pediatric Dentist

She was born in Limassol in 1985.

Graduated from Lanitio Lyceum in 2003. She studied dentistry at Aristotle University of Thessaloniki from where she graduated in 2010 with grade "Very Good". Since then she is a member of the Cyprus Dental Association. In July 2011 she started attending the 12month post-graduate program of Pediatric dentistry "Advance Program for International dentists in Pediatric dentistry" from New York University College of Dentistry. She participated in outreach programs in underdeveloped areas of the USA, where she offered dental care from mobile units to children of school and preschool age. With the dental van dental tests and treatments are provided for schools of New York.

In October 2012 she returned back to Cyprus where she started working exclusively with children, adolescents and individuals with special abilities.

In January 2014, she founded with Dr. Manto Angelidou, "Paidodontiatriki", a center dedicated to the dental health of children, adolescents and individuals with special abilities.
